- 2 Definitions

Assessment refers to the candidate instructor's assessment of a group of divers applying industry technical and safety criteria. A group is considered to be a minimum of two people.

Clients refer to individuals who are certified as open water divers.

Dive plan refers to the procedures by which the accredited dive provider's diving operations are implemented for all dives required to meet this standard.

Industry technical and safety criteria refer to dive instruction, supervision and performance being carried out in accordance with the standards, procedures and

training materials of the respective dive training agency. The agency must meet or exceed the World Recreational Scuba Training Council training standards.

Instruction refers to the candidate instructor's act of imparting knowledge or skills as per industry technical and safety criteria.

Open water is any natural body of water realistic of local diving conditions in terms of water movement, temperature, visibility, depth and aquatic life.

Specialist dive refers to dive training agency courses which requires instruction and assessment of client knowledge of specialised equipment or techniques beyond that of an open water diver and which has the intention of achieving dive agency certification for a singular specialty area.

3 Assessment against this unit standard may be undertaken in simulated conditions.
