

Title	Instruct and assess entry level divers' scuba skills and adherence to a dive plan in open water		
Level	5	Credits	20

Purpose	People credited with this unit standard are able to: instruct and assess entry level divers' knowledge of open water scuba diving to a depth of 18 metres; instruct and assess entry level divers' scuba skills in confined water; plan and prepare for instruction and assessment of entry level divers' open water scuba dives; and instruct and assess entry level divers' scuba skills and adherence to a dive plan in open water.
----------------	--

Classification	Diving > Diving - Instruction
-----------------------	-------------------------------

Available grade	Achieved
------------------------	----------

Prerequisites	<p>A current fit to dive medical clearance signed by a physician.</p> <p>A divemaster-level certification from a recognised dive training agency.</p> <p>Unit 28416, <i>Supervise and control scuba dive operations for certified divers</i>, or demonstrate equivalent knowledge and skills.</p>
----------------------	---

Guidance Information

- 1 All learning and assessment leading to this unit standard must be carried out in accordance with the following as relevant:
 - legislation including the Health and Safety at Work Act 2015, Health and Safety at Work (General Risk and Workplace Management) Regulations 2016, Accident Compensation Act 2001, and subsequent amendments;
 - *Working Safely in the Occupational Diving, Snorkelling, and Free-Diving Industries – A Guide for PCBUs* (WorkSafe, March 2020) and any supplementary publications, or any subsequent editions;
 - industry technical and safety criteria.
- 2 Definitions

Assessment refers to the candidate instructor's assessment of a group of entry level divers applying industry technical and safety criteria. A group is considered to be a minimum of two people.

Confined water refers to either a swimming pool or an open water site that approximates the safety and comfort of a swimming pool with respect to clarity, calmness, and depth.

Dive plan refers to the procedures by which the accredited dive provider's diving operations are implemented for all dives required to meet this standard.

Industry technical and safety criteria refer to dive instruction, supervision and performance being carried out in accordance with the standards, procedures and training materials of the respective dive training agency. The agency must meet or exceed the World Recreational Scuba Training Council training standards.

Instruction refers to the candidate instructor's act of imparting knowledge or skills as per industry technical and safety criteria.

Open water is any natural body of water realistic of local diving conditions in terms of water movement, temperature, visibility, depth and aquatic life.

3 Assessment against this unit standard may be undertaken in simulated conditions.

Outcomes and performance criteria

Outcome 1

Instruct and assess entry level divers' knowledge of open water scuba diving to a depth of 18 metres.

Performance criteria

1.1 Instruct and assess entry level divers on their scuba dive knowledge of open water scuba diving to a depth of 18 metres.

Outcome 2

Instruct and assess entry level divers' scuba skills in confined water.

Performance criteria

2.1 Instruct and assess entry level divers to conduct scuba skills in confined water.

Outcome 3

Plan and prepare for instruction and assessment of entry level divers' open water scuba dives.

Performance criteria

3.1 Conduct dive planning and preparation and establish parameters for entry level divers' open water scuba dives.

Outcome 4

Instruct and assess entry level divers' scuba skills and adherence to a dive plan in open water.

Performance criteria

4.1 Assess entry level divers' scuba dive planning and preparation in accordance with the dive plan.

- 4.2 Instruct and assess entry level divers to conduct scuba dives in accordance with a dive plan.
- 4.3 Instruct and assess entry level divers to conduct scuba skills.
- 4.4 Conduct post dive procedures in accordance with the dive plan.

Replacement information	This unit standard replaced unit standard 8274.
