----------------------	---

Guidance Information

- All learning and assessment leading to this unit standard must be carried out in accordance with the following as relevant:
 - legislation including the Health and Safety at Work Act 2015, Health and Safety at Work (General Risk and Workplace Management) Regulations 2016, Accident Compensation Act 2001, and subsequent amendments;
 - Working Safely in the Occupational Diving, Snorkelling, and Free-Diving Industries – A Guide for PCBUs* (WorkSafe, March 2020) and any supplementary publications, or any subsequent editions;
 - industry technical and safety criteria.
- Definitions

Assessment refers to the candidate instructor's assessment of a group of divers applying industry technical and safety criteria. A group is considered to be a minimum of two people.

Clients refer to individuals who are certified as open water divers.

Dive plan refers to the procedures by which the accredited dive provider's diving operations are implemented for all dives required to meet this standard.

Industry technical and safety criteria refer to dive instruction, supervision and performance being carried out in accordance with the standards, procedures and training materials of the respective dive training agency. The agency must meet or exceed the World Recreational Scuba Training Council training standards.

Instruction refers to the candidate instructor's act of imparting knowledge or skills as per industry technical and safety criteria.

Open water is any natural body of water realistic of local diving conditions in terms of water movement, temperature, visibility, depth and aquatic life.

3 Assessment against this unit standard may be undertaken in simulated conditions.

Outcomes and performance criteria

Outcome 1

Instruct and assess clients' knowledge of rescue diving.

Performance criteria

1.1 Instruct and assess clients on rescue diving knowledge.

Outcome 2

Plan and prepare for instruction and assessment of clients' rescue scuba dives.

Performance criteria

2.1 Conduct dive planning and preparation and establish parameters for client rescue dives.

Outcome 3

Instruct and assess clients' rescue scuba dives in open water.

Performance criteria

3.1 Assess clients' rescue scuba dive planning and preparation in accordance with the dive plan.

3.2 Instruct and assess clients to conduct rescue scuba dives in accordance with a dive plan.

3.3 Instruct and assess clients to conduct rescue scuba dive skills for different scenarios.

3.4 Conduct post dive procedures in accordance with the dive plan.

Replacement information	This unit standard replaced unit standard 8275.
