

Title	Apply aeronautical engineering knowledge and skills to maintain generic aircraft propellers		
Level	4	Credits	8

Purpose	People credited with this unit standard are able to apply aeronautical engineering knowledge and skills to maintain generic aircraft propellers.
----------------	--

Classification	Aeronautical Engineering > Aeronautical Engineering - Core
-----------------------	--

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 All tasks must be carried out in accordance with enterprise procedures.
- 2 Definition
Enterprise procedures – procedures used by the organisation carrying out the work and applicable to the tasks being carried out. Examples are – standard operating procedures, safety procedures, equipment operating procedures, codes of practice, quality management practices and standards, procedures to comply with legislative and local body requirements.
- 3 Assessment of this unit standard is to take place on a system fitted to an aircraft to replicate the interdependence of aircraft systems and on-aircraft safety precautions.
- 4 This unit standard is designed for assessment in a training environment.
- 5 The scope of the systems that this standard relates to may include but is not limited to those described in ATA iSpec 2200, chapter 61.

Outcomes and performance criteria

Outcome 1

Apply aeronautical engineering knowledge and skills to maintain generic aircraft propellers.

Performance criteria

- 1.1 Aeronautical engineering safety precautions are applied to the maintenance of generic aircraft propellers.
- 1.2 Aeronautical engineering publications are interpreted and applied to the maintenance of generic aircraft propellers.

- 1.3 Aeronautical engineering documentation practices are applied to the maintenance of generic aircraft propellers.
- 1.4 Aeronautical engineering maintenance practices are applied to the maintenance of generic aircraft propellers.
- 1.5 Knowledge of aircraft propellers is applied to the maintenance of generic aircraft propellers.

Planned review date	31 December 2024
----------------------------	------------------

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	24 October 2014	31 December 2021
Review	2	26 March 2020	N/A

Consent and Moderation Requirements (CMR) reference	0028
