------------------------	----------

Guidance Information

- 1 Legislation and references relevant to this unit standard include:
Traffic Regulations 1976;
NZS 3910:2013 *Conditions of Contract for Building and Civil Engineering Construction*, available at <http://www.standards.co.nz>;
Local authority regulations;
Contract documents.
- 2 Assessment against this unit standard must be based on evidence from a workplace context.
- 3 Definitions
Company requirements include the policy, procedures, and methodologies of the company. They include legislative and regulatory requirements that may apply across the company or to a specific site. Requirements are documented in the company health and safety plans, traffic management plans, contract work programmes, quality plans, policies, and procedural documents.
Contract documents refer to all documents included in the signed contract. These usually include: general conditions of contract, special conditions of contract, operational requirements, project specifications, schedule of quantities, plans, and appendices.

Outcomes and performance criteria

Outcome 1

Interpret and communicate the requirements of infrastructure works contract documents.

Performance criteria

- 1.1 Components of contract documents and their purpose and function are interpreted.
