Guidance Information

- Unit standards in the Small Business domain are about the development and operation of a business that is either owner-operated or employs no more than twenty people.
- Assessment must be conducted in real business context(s) or based on scenario(s) which must reflect the requirements and practicalities for conducting business in Aotearoa New Zealand.

These *requirements and practicalities* must include meeting the requirements of all relevant legislation and should address such areas as the real business or scenario-based context's:

- purpose and goals/objectives,
- future development,
- external operating environment,
- internal processes, accountabilities, and relationships.

The requirements and practicalities of the context(s) provide evidence for this unit standard.

- The real business or scenario-based context(s) and their requirements and practicalities must be sufficiently complex to enable demonstration of the full range of competence for achievement of the outcome, and to meet the descriptors for level 4 in the NZQF Level Descriptors, which are available at www.nzqa.govt.nz.
