Explanatory notes

1 References

Enactments and codes relevant to this unit standard include but are not limited to the: Food Act 1981 and the Food Act 2014; Health and Safety in Employment Act 1992; Health and Safety at Work Act 2015; Resource Management Act 1991; Food (Safety) Regulations 2002; Food Hygiene Regulations 1974; and the Australia New Zealand Food Standards Code, available at <http://www.foodstandards.govt.nz/>.

2 Definition

Workplace procedures refer to procedures used by the organisation carrying out the work and applicable to the tasks being carried out, such as recipes, production specifications, standard operating procedures, site safety procedures, equipment operating procedures, codes of practice, quality assurance procedures, housekeeping standards, and procedures to comply with legislative and local body requirements.

3 Assessment information

Evidence generated during assessment against this standard must meet applicable workplace procedures and be consistent with industry practice and the generally accepted body of knowledge relating to baking science and technology. Such knowledge is available in relevant training manuals and reference texts. No one textbook or other source of information is envisaged, as new approaches to commercial baking and baking products are published regularly.

Outcomes and evidence requirements

Outcome 1

Describe the development process for a new bakery product.

Evidence requirements

- 1.1 The workplace development process for new products is described in terms of market requirements, product characteristics, and production cost.
- 1.2 The viability of the new product is determined from the cost and availability of ingredients.
- 1.3 Process, equipment, and human resource requirements are described for the production of the new product.

Range existing equipment, equipment modifications, new equipment, new techniques, human resource requirements, environmental issues.
- 1.4 Evaluation of the new production process against existing workplace procedures is described.

Outcome 2

Set up and operate equipment for new product development trials.

Evidence requirements

- 2.1 Communication with development team members is in accordance with workplace procedures and positively contributes to the development process.
- 2.2 Recipe, product, and process specifications for a new product are interpreted and complied with.
- 2.3 The ability of existing plant to produce the new product is assessed and any deficiencies identified and communicated in accordance with workplace procedures.

Range equipment, personnel skills, processes, procedures.
- 2.4 Trial batch runs are scheduled into production schedules and minimise disruption and effect on existing product output.
- 2.5 Equipment is set up for production of trial batches to meet new product specifications and characteristics.
- 2.6 Trial batch runs are carried out, monitored, evaluated, and documented in accordance with workplace procedures.

- 2.7 Adjustments are made to equipment and/or processes to achieve the specified requirements of the new product, and documented in accordance with workplace procedures.

Outcome 3

Complete the development trial baking process.

Evidence requirements

- 3.1 Equipment is cleaned and left in a condition ready for the next operation in accordance with workplace procedures.
- 3.2 Documentation and/or records are completed in accordance with workplace procedures.
- 3.3 New production processes are evaluated against existing workplace procedures and any non-compliance identified and notified in accordance with workplace procedures.

Planned review date	31 December 2021

Consent and Moderation Requirements (CMR) reference	0013
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
