

<b>Title</b>	<b>Demonstrate knowledge of roading, terrain and carparking at a snowsport area and their associated safety procedures</b>		
<b>Level</b>	<b>3</b>	<b>Credits</b>	<b>10</b>

<b>Purpose</b>	People credited with this unit standard are able to demonstrate knowledge of roading, terrain and carparking at a snowsport area and their associated safety procedures.
----------------	--

<b>Classification</b>	Snowsport > Snowsport Area Operations
-----------------------	---------------------------------------

<b>Available grade</b>	Achieved
------------------------	----------

### Guidance Information

- 1 All learning and assessment against this unit standard must be carried out in accordance with the following:
  - relevant legislation including the Health and Safety at Work Act 2015, Accident Compensation Act 2001, Privacy Act 2020, and the Human Rights Act 1993, and subsequent amendments and associated regulations;
  - alpine industry codes including *Snow Safety Code* and *Outdoor Safety Code*; (available at <http://www.mountainsafety.org.nz>);
  - organisational policies and procedures including Emergency Action Plans (EAPs), Standard Operating Procedures (SOPs), and the use of personal protective equipment.
  
- 2 Definitions
 

*Mountain facility* refers to the operations of lift, road and carparking services at an alpine area that is established primarily for the provision of snowsport and associated snow activities. Some alpine resorts may also provide summer operations for activities such as mountain biking, walking and guest visits.

*Snowsport area policy and procedures* are instructions to staff that may be documented and available for reference within mountain facility operation departments at each alpine resort in the form of an operations manual and/or policy and procedures manual.

*Organisational policies and procedures* are documented instructions to staff that are available for reference at mountain facility operation departments in the form of an operations manual and/or policy and procedures manual.

A *vehicle* may be defined as a car, van, bus, campervan, motorcycle, or truck and may be two-wheel drive or four-wheel drive.

## Outcomes and performance criteria

### Outcome 1

Demonstrate knowledge of roading, terrain and carparking at a snowsport area and their associated safety procedures.

### Performance criteria

- 1.1 Identify and locate carparks, road services' facilities and access roads at the snowsport area.
- 1.2 Describe capacity overflow of carparks and road, common traffic flow issues and appropriate responses to these in terms of operational requirements.
- 1.3 Explain impact and influence of alpine weather conditions and terrain on road and carpark conditions and describe responses to these that meet snowsport area procedures.
- 1.4 Describe common hazards in a range of conditions and appropriate responses in terms of safety procedures.

Range may include but is not limited to hazards arising from – weather conditions, road conditions, vehicle volume, sudden weather change.

- 1.5 Describe emergency responses in terms of snowsport area emergency plans and procedures.

Range may include but is not limited to – vehicle accident, avalanche, lahar, fire, damage to vehicle, dangerous driving, injury.

<b>Planned review date</b>	31 December 2025
