----------------	---

<b>Classification</b>	Horticulture > Amenity Horticulture
-----------------------	-------------------------------------

<b>Available grade</b>	Achieved
------------------------	----------

### Guidance Information

- 1 Legislation relevant to this unit standard includes but is not limited to:
  - Health and Safety at Work Act 2015;
  - Historic Places Act 1993;
  - Local Government Act 2002;
  - Reserves Act 1977;
  - Resource Management Act 1991;
  - and any subsequent amendments.
- 2 *Workplace procedures* refer to procedures for safety and operation set down by the employer or host organisation for equipment use and maintenance and must be consistent with equipment manufacturer's instructions.
- 3 **Assessment**  
 Assessment must be conducted in the context of a real or realistic amenity organisation, consistent with the requirements of that organisation. An amenity organisation can be business, or a commercial or other enterprise, not necessarily for profit, and can be a business unit within a larger organisation. The organisation must be sufficiently complex to enable demonstration of the full range of competence for achievement of the outcome.  
 Assessment must be carried out on an amenity site with a specified intended use.
- 4 Examples of an amenity site may include a park, garden, location within a collection (for example an arboretum or botanical garden situation), theme, or genus type. Examples of intended use include – aesthetics, establishment of plantings, maintenance of plantings, regeneration, revegetation; or an event such as a garden tour, or wedding.
- 5 Communication and interpersonal skills have been included in this standard as evidence requirements. These skills must not be addressed separately, but as part of an integrated assessment with the technical skills.

- 6 The seasonal management plan must include:
- Planting (plants and/or trees) including plant identification, selection, and bedding changes where relevant for the site;
  - Plant maintenance, for example, pruning, mowing, fertiliser, irrigation;
  - Pest and disease control (including integrated pest management) including pest and disease identification, monitoring, control (biological, chemical, cultural);
  - Weed control including identification, control. Control methods may include a combination of biological, chemical, cultural;
  - Soil management, for example bed preparation, drainage, and mulching;
  - Waste management, for example, collection, mulching, and disposal;
  - Amenity turf management (where present on site) including establishment, care, and maintenance;
  - Hard asset maintenance where present on site including paths and fences.
- 7 All evidence presented in this unit standard must be in accordance with workplace procedures.

## Outcomes and performance criteria

### Outcome 1

Prepare for implementation of a seasonal management plan for an amenity site.

### Performance criteria

- 1.1 Determine staff skill requirements and arrange for their training as required.
- 1.2 Co-ordinate availability of plants and consumables at the time of implementation of a seasonal management plan and order in as required.
- 1.3 Identify equipment required, check for suitability, and ensure its operational at the time of the implementation of a seasonal management plan.
- 1.4 Inspect the site and identify contingencies to manage site variables.
- 1.5 Develop schedules for the team and individual jobs.
- Range schedules – daily, weekly, monthly.

<b>Planned review date</b>	31 December 2026
