### Guidance Information

- 1 Assessment and training activities and resources for this unit standard must take into consideration the Health and Safety at Work Act 2015, its regulations and any subsequent amendments. When assessment and training is contextualised for a specific industry, any industry specific legislation, codes of practice, guidelines and standards must be incorporated.
- 2 This unit standard can be used to support programmes leading towards the New Zealand Certificate in Workplace Health and Safety Practice (Level 3) [Ref: 3533].
- 3 This unit standard is aimed at people who require operational knowledge of the application of routine health and safety risk management to a job role.
- 4 It is assumed that the candidate will operate in a controlled learning and/or assessment environment with established systems for health and safety risk management and that there will be routine and relatively simple methods for identification and risk management in use.

---

### Outcomes and performance criteria
