----------------	--

Classification	Meat Processing > Animal Product Examination
-----------------------	--

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Demonstration of competency must be consistent with all relevant legislation and subsequent amendments; this includes but is not limited to:
 - Workplace procedures
 - Industry standards
 - Health and Safety at Work Act 2015
 - Animal Products Act 1999
 - Meat Act 1981.
- 2 Industry standards refer to Ministry for Primary Industries' Technical Directive TD 02/105 – Inspection Requirements for Rabbits, Hares and Possums
<http://www.foodsafety.govt.nz/industry/general/animal-products/omar-notifications/02-105.htm>.
- 3 In the context of this unit standard, *understanding* means that there should be evidence of a learner's thorough comprehension of a topic. A learner with a good understanding of a topic should have applied, or should be able to apply what they have learnt to a workplace situation and will be able to alter their practices to the different contexts they are applying their learning to. Assessors should be confident that the learner's understanding is embedded in their practices and behaviour.
- 4 Definitions

Dispositions – the action of ensuring that examined animal material or animal product with abnormalities is managed in accordance with legislative requirements.

Workplace procedures – the verbal and written policies and procedures on safety and operation set down by the employer or organisation.

- 4 Diseases requiring report are those listed in the Ministry for Primary Industries' Notifiable Organisms list, available at <http://www.mpi.govt.nz/protection-and-response/finding-and-reporting-pests-and-diseases/registers-and-lists/>.

Outcomes and performance criteria

Outcome 1

Demonstrate understanding of, and carry out procedures for, post-mortem examination of rabbit products.

Performance criteria

- 1.1 Describe the industry standards for rabbit product post-mortem examination.
- 1.2 Carry out rabbit product post-mortem examination procedures according to industry standards.

Outcome 2

Diagnose and assess diseases and defects found at post-mortem examination of rabbit products, and apply dispositions.

Performance criteria

- 2.1 Diagnose and record diseases and defects affecting viscera and carcasses of rabbit products.
- 2.2 Make judgements on findings.
- 2.3 Apply dispositions to inspected rabbit products.

Planned review date	31 December 2022
