Guidance Information

1 Legislation and references

Demonstration of competency for all outcomes must be consistent with all relevant legislation and subsequent amendments; this includes but is not limited to:

- Animal Products Act 1999
- Animal Welfare Act 1999
- Health and Safety at Work Act 2015
- Industry standards
- Manufacturer's guidelines for equipment use
- Workplace procedures.

2 Industry standards refer to:

- Ministry for Primary Industries' Operational Codes available at - <https://www.mpi.govt.nz/legal/compliance-requirements/codes-of-practice/>
- Ministry for Primary Industries' standards available at <https://www.mpi.govt.nz/>
- Overseas Market Access Requirements (OMARs).

3 Definitions

Dispositions – action of ensuring that examined animal material or animal product with abnormalities is managed in accordance with legislative requirements.

Workplace procedures – the verbal and written policies and procedures on safety and operation set down by the employer or organisation.

- 4 The term *describe* means the learner can demonstrate this knowledge using a variety of means (written, diagrams, showing the assessor, verbal) provided there is documented evidence. Diseases requiring report in this unit standard are those listed in the Ministry for Primary Industries' Notifiable Organisms list, available at <http://www.mpi.govt.nz/protection-and-response/finding-and-reporting-pests-and-diseases/registers-and-lists/>.

Outcomes and performance criteria

Outcome 1

Describe preparation to perform post-mortem examination of sheep or goats for human consumption.

Performance criteria

- 1.1 Equipment used and resources available, and its purpose, for post-mortem examination of sheep or goats for human consumption are described.
- 1.2 Presentation requirements for sheep or goats for human consumption are described.
- 1.3 The ability to view, incise and palpate animal tissues as required for the procedures on sheep or goats for human consumption is described.
- 1.4 Different disposition criteria are described.

Range includes but is not limited to – human consumption, animal consumption, sample for further analysis, remove/condemn.

Outcome 2

Perform post-mortem examination of sheep and goats for human consumption.

Performance criteria

- 2.1 Animal product post-mortem examination procedures are performed according to industry standards.

Range includes but is not limited to – safe handling and maintenance of a knife, applicable hygiene practices, use of personal protective equipment, ability to view/incise/palpate animal tissue required for post-mortem examination.

Outcome 3

Identify the diseases and defects found at post-mortem examination of sheep and goats and apply the disposition.

Performance criteria

3.1 Diseases in sheep or goats which effect the intended fitness for purpose of the animal products are identified.

Range includes but is not limited to – the disposition criteria and regulatory recording requirements for sheep or goats for human consumption.

3.2 Dispositions to inspected animal products are applied.
