## Guidance Information

- 1 Assessment must be conducted in real business context(s) or based on scenario(s) which must reflect the requirements and practicalities for conducting business in Aotearoa New Zealand.

These *requirements and practicalities* must include meeting the requirements of all relevant legislation and should address such areas as the real business or scenario-based context's:

- purpose and goals/objectives,
- future development,
- external operating environment,
- internal processes, accountabilities, and relationships.

The requirements and practicalities of the context(s) provide evidence for this unit standard.

The real business or scenario-based context(s) and their requirements and practicalities must be sufficiently complex to enable demonstration of the full range of competence for achievement of the outcome.

- 2 Definitions

All Project Management terms used in this standard can be found and defined at: [www.pmi.org](http://www.pmi.org).

A *project* refers to a temporary group activity designed to produce a discrete product, service, or result.

*Project management* refers to the application of specialist knowledge, skills, tools and techniques to project activities to meet the project requirements.

- 3 All assessment evidence for this standard must be sourced from the same project, which can be a different project to that used for other standards.
