2 Definition

Regulatory framework – the operational context arising from relevant legislation, regulations, codes, and standards.

Outcomes and performance criteria

Outcome 1

Demonstrate knowledge of the structure of the regulatory framework of the plumbing, gasfitting, and drainlaying sector.

Performance criteria

1.1 Explain the roles of and inter-relationships between key stakeholders in the regulatory environment for the plumbing, gasfitting, and drainlaying sector.

Range may include but is not limited to – Minister of Building and Housing; Plumbers, Gasfitters, and Drainlayers Board; Territorial Authorities; Standards New Zealand; Ministry of Business, Innovation, and Employment; WorkSafe New Zealand; Energy Safety.

1.2 Identify relevant Acts, Regulations, standards, and codes that apply to the plumbing, gasfitting, and drainlaying sector.

1.3 Outline the relationship between the key Acts, Regulations, standards, and codes in the plumbing, gasfitting, and drainlaying sector.

Outcome 2

Demonstrate knowledge of the impact of the regulatory framework for practitioners in the plumbing, gasfitting, and drainlaying sector.

Performance criteria

2.1 Outline the key provisions of relevant acts and regulations, standards, and codes that are relevant to the plumbing, gasfitting, and drainlaying sector.

Range for each identified act, regulation, standard, or code: the area of coverage, intention of the provision, overview of the requirements.

2.2 Describe key implications for plumbing, gasfitting, and drainlaying practitioners of New Zealand Gazette Notices affecting them.

Range minimum standards for registration, terms and conditions of licence, authorised work, supervision requirements, competency standards, complaints, disciplinary processes, prosecutions.
