

Title	Weld metal boat components in all positions		
Level	4	Credits	10

Purpose	People credited with this unit standard are able to prepare to weld, and weld metal boat components in all positions.
----------------	---

Classification	Boating Industries > Boatbuilding
-----------------------	-----------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 All work practices must meet recognised codes of practice and documented worksite health and safety procedures (where these exceed code) for personal, product, and worksite health and safety, and must meet the obligations required under Health and Safety at Work Act 2015, Resource Management Act 1991, AS/NZS 1665:2004 Welding of Aluminium Structures, AS/NZS 1554.1:2004 Welding of Steel Structures, and any subsequent amendments.
- 2 Definitions
Job specifications refers to the standard requirements of the job being undertaken.
Resources refers to machinery, equipment, and materials.
Welding positions are 2F/G – horizontal position, 3F/G – vertical position, 4F/G – overhead position, where F refers to fillet and G refers to groove type of weld.
Workplace policies and procedures refers to the documented procedures and policies providing guideline of the tasks and activities carried out in the workplace. This typically includes relevant health and safety requirements to eliminate hazard/risk in the workplace.
- 3 The welding processes used for assessment must include at least one of the following:
 - manual metal arc
 - gas metal arc
 - flux cored arc
 - gas tungsten arc
 and are undertaken through either construction of new metal boats or metal production trailer boats, or in a marine systems engineering environment.

Outcomes and performance criteria

Outcome 1

Prepare to weld metal boat components in all positions.

Performance criteria

- 1.1 Scope of work is evaluated in relation to job specifications.
- 1.2 Resources and equipment are prepared and assembled in accordance with job specifications and workplace policies and procedures.
- 1.3 Metal is positioned and aligned, ready for welding in accordance with job specifications and workplace policies and procedures.

Outcome 2

Weld metal boat components in all positions.

Performance criteria

- 2.1 Welds are deposited on metal boat components in accordance with job specifications and workplace policies and procedures.
- 2.2 Finished welded boat components are checked and remedial action is taken if required to ensure job specifications are met.

Planned review date	31 December 2022
