

Title	Demonstrate knowledge of diagnosing faults in automotive driveline systems		
Level	3	Credits	2

Purpose	People credited with this unit standard are able to demonstrate knowledge of diagnosing faults in an automotive driveline system.
----------------	-----------------------------------------------------------------------------------------------------------------------------------

Classification	Motor Industry > Automotive Transmission Systems
-----------------------	--------------------------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 It is recommended that people hold credit for Unit 30560, *Demonstrate knowledge of clutches and manual transmissions*, Unit 30561, *Demonstrate knowledge of drivelines and final drives*, Unit 30562, *Demonstrate knowledge of automatic transmissions*, and Unit 30885, *Demonstrate knowledge of automotive diagnostic and repair procedures* before being assessed against this unit standard.
- 2 Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable service information, and company and legislative requirements. This includes the knowledge and use of suitable tools and equipment.
- 3 Legislation, regulations and/or industry standards relevant to this unit standard include but are not limited to the current version of the Health and Safety at Work Act 2015; and any subsequent amendments and replacements.
- 4 **Definitions**
Company requirements refer to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.
Service information may include – technical information for a vehicle, machine, or product detailing operation; installation and servicing procedures; manufacturer instructions; technical terms and descriptions; and detailed illustrations.
- 5 Machines may include: forklifts, earth moving equipment, grader equipment, loaders, dozers, tractors, agricultural equipment, dump trucks, prime movers; electric machines including – forklift, walk-behind pallet, ride-on pallet, reach truck, order picker, counterbalance truck, turret truck.

Outcomes and performance criteria

Outcome 1

Demonstrate knowledge of diagnosing faults in automotive driveline systems.

Range automatic transmission, clutch system, clutch calibration, constantly variable transmission (CVT), dual mass flywheel, final drive, free-wheeling hubs, manual transmission, transfer case.

Performance criteria

1.1 Methods of diagnosing driveline component or system faults are described.

Range electronic control, mechanical faults.

Planned review date	31 December 2022
----------------------------	------------------

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	1 March 2018	N/A

Consent and Moderation Requirements (CMR) reference	0014
------------------------------------------------------------	------
