

Title	Diagnose and repair faults in machine hydraulic power assisted braking systems		
Level	4	Credits	6

Purpose	People credited with this unit standard are able to diagnose and repair faults in machine hydraulic power assisted braking systems.
----------------	---

Classification	Motor Industry > Vehicle Braking Systems
-----------------------	--

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 It is recommended that people hold credit for Unit 31275, *Demonstrate knowledge of a machine hydraulic power assisted braking systems* before being assessed against this unit standard.
- 2 Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable service information, company requirements and legislative requirements. This includes the knowledge and use of suitable tools and equipment.
- 3 Legislation, regulations and/or industry standards relevant to this unit standard include but are not limited to – the current version of the Health and Safety at Work Act 2015 and any subsequent amendments or replacements.
- 4 **Definitions**
Company requirements refers to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.
Service information may include – technical information for a vehicle, machine, or product detailing operation; installation and servicing procedures; manufacturer instructions; technical terms and descriptions; and detailed illustrations.
- 5 Machines may include – forklifts, earth-moving equipment, grader equipment, loaders, dozers, tractors, agricultural equipment, dump trucks, prime movers; electric machines, including – forklift, walk-behind pallet, ride-on pallet, reach truck, order picker, counterbalance truck, turret truck.
- 6 This unit standard applies to hydraulic power assisted braking systems that utilise the machine's hydraulic system to operate and assist the brakes.

Outcomes and performance criteria

Outcome 1

Diagnose and repair faults in machine hydraulic power assisted braking systems.

Range evidence of diagnosing and repairing faults on two separate machines is required.

Performance criteria

1.1 Braking system faults are diagnosed.

1.2 Braking system faults are repaired.

Planned review date	31 December 2023
----------------------------	------------------

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	26 July 2018	N/A

Consent and Moderation Requirements (CMR) reference	0014
--	------
