Title | Diagnose and repair faults in a machine hydraulic or hydrostatic system
---|---
Level | 4 | Credits | 10

Purpose | People credited with this unit standard are able to diagnose and repair faults in a machine hydraulic or hydrostatic system.

Classification | Motor Industry > Automotive Hydraulics

Available grade | Achieved

Guidance Information

1. It is recommended that people hold credit for Unit 31276, *Demonstrate knowledge of heavy vehicle and machine hydraulic systems* and Unit 31277, *Demonstrate knowledge of machine hydrostatic drive systems* before being assessed against this unit standard.

2. Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable service information, company requirements and legislative requirements. This includes the knowledge and use of suitable tools and equipment.

3. Legislation, regulations and industry standards relevant to this unit standard include but are not limited to – the current version of the Health and Safety at Work Act 2015 and any subsequent amendments or replacements.

4. Definitions
   - *Company requirements* refers to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.
   - *Service information* may include – technical information for a vehicle, machine, or product detailing operation; installation and servicing procedures; manufacturer instructions; technical terms and descriptions; and detailed illustrations.

5. Machines may include – forklifts, earth-moving equipment, grader equipment, loaders, dozers, tractors, agricultural equipment, dump trucks, prime movers; electric machines, including – forklift, walk-behind pallet, ride-on pallet, reach truck, order picker, counterbalance truck, turret truck.
Outcomes and performance criteria

Outcome 1

Diagnose and repair faults in a machine hydraulic or hydrostatic system.

Range  evidence of two separate systems is required.

Performance criteria

1.1 Diagnose faults in a hydraulic or hydrostatic system.

Range  flow test, pressure test, performance test.

1.2 Repair faults in a hydraulic or hydrostatic system.

Replacement information

This unit standard replaced unit standard 15410.

Planned review date

31 December 2023
