Title	**Cast fibrous plaster sheets**		
Level	**4**	**Credits**	**10**

Purpose	This unit standard aligns with the *New Zealand Certificate in Fibrous Plaster Manufacture –Specifications*, developed on behalf of the fibrous plaster manufacture industry to specify the skills and knowledge required to achieve the New Zealand Certificate in Fibrous Plaster Manufacture (Level 4) with an optional strand in Specialist Models and Mould Making [Ref: 3062]. This unit standard is intended for those working in the fibrous plaster manufacturing industry. People credited with this unit standard are able to cast fibrous plaster sheets to the level required of a commercially competent fibrous plaster manufacturer.

Classification	Construction Trades > Fibrous Plaster

Available grade	Achieved

Guidance Information

This unit standard is one of a family of standards that align with the *New Zealand Certificate in Fibrous Plaster Manufacture – Specifications* and should be read, interpreted and assessed in the context of those *Specifications* and the New Zealand Certificate in Fibrous Plaster Manufacture (Level 4) with an optional strand in Specialist Models and Mould Making [Ref: 3062].

The overarching level of performance for the family of unit standards is commercial competence.

Commercial competence requires a candidate to be capable of consistently performing the requirements of the unit specification:

- to current regulatory, industry and commercial standards
- within a commercially viable timeframe
- in commercial environments
- without supervision
- in different and unfamiliar contexts.

The sufficiency of evidence required to demonstrate commercial competence against this unit standard is determined within the context of the family of unit standards aligned to the *Specifications.*

© New Zealand Qualifications Authority 2025

The assessor must be confident that the candidate is capable of applying the skills and knowledge included in this skill specification to the level, scope and complexity required to support the achievement of related skills included in the *Specifications*.

Commercial competence can only be demonstrated, and must be assessed, in the workplace.

The assessment of commercial competence must be corroborated and confirmed by a person who has current expertise in the fibrous plaster manufacture trade and has had the opportunity to regularly observe the candidate in the workplace.

Skill specification and performance level guidance

Skill specification

Cast fibrous plaster sheets.

Know Properties of the different types of fibrous plaster sheets.

Methods of casting different types of fibrous plaster sheets.

Methods of storing and drying fibrous plaster sheets.

The ratios of ingredients for plaster gauges used in the manufacture of fibrous plaster sheets.

Do Prepare table or moulds to cast fibrous plaster sheets.

Cast fibrous plaster sheets.

Remove sheets from table or mould.

Store green sheets to dry.

Performance level guidance

Types of fibrous plaster sheets include – flat, curved, decorative.

Properties include – size, thickness, surface finishes, edge treatments, strength, fire resistance.

The quantity of fibrous plaster sheets required to be cast in any given day depends on the size, shape and complexity of the product; the availability, quality and set-up of tables and moulds; setting times appropriate to the product; and production requirements.

Preparing the table or mould includes setting rules and applying release agent.

© New Zealand Qualifications Authority 2025

Casting includes – mixing and applying plaster gauges, adding reinforcement, screeding and finishing edges and back.

Green sheets refer to freshly cast sheets yet to be dried.

Planned review date	31 December 2027

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	30 August 2018	N/A
Rollover	2	27 April 2023	N/A
Rollover and Revision	3	28 August 2025	N/A

Consent and Moderation Requirements (CMR) reference	0120
