

Title	Demonstrate understanding of and receive, handle and store materials used for fibrous plaster installation		
Level	4	Credits	1

Purpose	<p>This unit standard aligns with the <i>New Zealand Certificate in Interior Linings Installation – Specifications</i>, developed on behalf of the interior linings industry to specify the skills and knowledge required to achieve the New Zealand Certificate in Interior Linings Installation (Level 4) with strands in Fixing and Finishing (with optional strand in Fibrous Plaster Installation) [Ref: 3061].</p> <p>This unit standard is intended for those working in the interior linings industry.</p> <p>People credited with this unit standard are able to demonstrate understanding of and receive, handle and store materials used for fibrous plaster installation to the level required of a commercially competent interior linings installer.</p>
----------------	--

Classification	Construction Trades > Plaster Board
-----------------------	-------------------------------------

Available grade	Achieved
------------------------	----------

Prerequisites	<p>Unit 31310, <i>Fix interior linings</i>; Unit 31318, <i>Install paper-faced cove or fibrous plaster cornice</i>; Unit 31325, <i>Stop and finish interior linings</i>; Unit 31326, <i>Check linings and surfaces and back-block substrates prior to finishing interior lining</i>; Unit 31327, <i>Check substrates prior to fixing interior linings</i>; or demonstrate equivalent knowledge and skills.</p>
----------------------	---

Guidance Information

This unit standard is one of a family of standards that align with the *New Zealand Certificate in Interior Linings Installation – Specifications* and should be read, interpreted and assessed in the context of those *Specifications* and the New Zealand Certificate in Interior Linings Installation (Level 4) with strands in Fixing and Finishing (with optional strand in Fibrous Plaster Installation) [Ref: 3061].

The overarching level of performance for the family of unit standards is commercial competence.

Commercial competence requires a candidate to be capable of consistently performing the requirements of the unit specification:

- to current regulatory, industry and commercial standards
- within a commercially viable timeframe
- in commercial environments
- without supervision
- in different and unfamiliar contexts.

The sufficiency of evidence required to demonstrate commercial competence against this unit standard is determined within the context of the family of unit standards aligned to the *Specifications*.

The assessor must be confident that the candidate is capable of applying the skills and knowledge included in this skill specification to the level, scope and complexity required to support the achievement of related skills included in the *Specifications*.

Commercial competence can only be demonstrated, and must be assessed, in the workplace.

The assessment of commercial competence must be corroborated and confirmed by a person who has current expertise in the interior linings installation trade and has had the opportunity to regularly observe the candidate in the workplace.

Skill specification and performance level guidance

Skill specification

Demonstrate understanding of and receive, handle and store materials used for fibrous plaster installation.

Know Types, properties and uses of accessories.

Types, properties and uses of tapes, mouldings and trim used when finishing fibrous plaster linings.

Types, properties and uses of compounds.

Types, properties and uses of wadding.

Do Receive, handle and store materials used for fibrous plaster installation.

Performance level guidance

Types of accessories include fixings, fasteners and adhesives.

Types of tapes, moulding and trim include any site-formed or pre-formed item installed and bedded in position by a fibrous plasterer at internal and external corners, edges, junctions and joins.

The level of materials knowledge required is that of an industry practitioner rather than that of an expert with specialist knowledge.

Planned review date	31 December 2025
