Guidance Information

It is expected, but not required, that this unit standard will be assessed at, or near the completion of a programme leading to the achievement of all outcomes of the New Zealand Certificate in Interior Linings Installation (Level 4) with strands in Fixing, and Finishing (with optional strand in Fibrous Plaster Installation) [Ref: 3061].

Assessment for this unit standard is a holistic judgement of the candidate's ability to maintain the professional standards of the interior linings installation trade by consistently demonstrating the skills, knowledge and attributes that reflect the technical competence, self-management, professionalism and leadership required of an interior linings installation trade professional.

The level of performance for this unit standard is consistency with current professional standards. Professional standards are reflected in:

- employment agreements, codes of conduct and standard operating procedures
- training and education agreements
- standards of ethics and professionalism produced by industry membership organisations
- best practice and technical guidance produced by suppliers, regulators, education and industry organisations.

Assessment for this unit standard may be partially based on evidence that was accumulated as the candidate gained the knowledge, skills and experience of the trade, and must occur in the context of the workplace.

Competence in this unit standard must be corroborated with, and confirmed by, a person who has current expertise in the interior linings installation trade and has had the opportunity to regularly observe the candidate in the workplace.

Skill specification and performance level guidance

Skill specification

Maintain the professional standards of the interior linings installation industry as an interior linings installer.

Know The practical and conceptual interrelationships between the unit standards required to achieve the New Zealand Certificate in Interior Linings Installation [Ref: 3061].

How to locate and interpret interior linings installation sector professional standards.

The connection between professional standards and the sustainability of the interior linings installation trade.

Do Perform all aspects of an interior linings installation trade specialty to a commercially competent standard.

Complete interior linings installation work to the productivity standards expected of a trade professional.

Demonstrate professional behaviour on a day-to-day basis.

Fulfil responsibilities in the workplace under commercial contracts, employment and education agreements.

Self-manage on-going learning and development to maintain currency with interior linings installation professional standards.

Support the learning and development of others attaining the trade.

Lead the everyday onsite operations of commercial interior linings installation projects.

Performance level guidance

A commercially competent standard means completing work to a commercial standard in a commercial environment without supervision.

Expected productivity standards will reflect the complexity and scale of the work to be undertaken.

Demonstrating professional behaviour on a day-to-day basis is likely to include working constructively with clients, suppliers and people involved in the candidate's learning programme, being consistently reliable, responsible and accountable, acting with integrity, making and keeping commitments, and showing respect and consideration for people, property and the environment.

Leading the everyday onsite operations of commercial interior linings installation projects is limited to workflow management and completing work within the scope provided without requiring regular guidance and/or scrutiny.

Planned review date	31 December 2025
