

Title	Stop and finish interior linings		
Level	4	Credits	55

Purpose	<p>This unit standard aligns with the <i>New Zealand Certificate in Interior Linings Installation – Specifications</i>, developed on behalf of the interior linings industry to specify the skills and knowledge required to achieve the New Zealand Certificate in Interior Linings Installation (Level 4) with strands in Fixing and Finishing (with optional strand in Fibrous Plaster Installation) [Ref: 3061].</p> <p>This unit standard is intended for those working in the interior linings industry.</p> <p>People credited with this unit standard are able to stop and finish interior linings to the level required of a commercially competent interior linings finisher.</p>
----------------	---

Classification	Construction Trades > Plaster Board
-----------------------	-------------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

This unit standard is one of a family of standards that align with the *New Zealand Certificate in Interior Linings Installation – Specifications* and should be read, interpreted and assessed in the context of those *Specifications* and the New Zealand Certificate in Interior Linings Installation (Level 4) with strands in Fixing and Finishing (with optional strand in Fibrous Plaster Installation) [Ref: 3061].

The overarching level of performance for the family of unit standards is commercial competence.

Commercial competence requires a candidate to be capable of consistently performing the requirements of the unit specification:

- to current regulatory, industry and commercial standards
- within a commercially viable timeframe
- in commercial environments
- without supervision
- in different and unfamiliar contexts.

The sufficiency of evidence required to demonstrate commercial competence against this unit standard is determined within the context of the family of unit standards aligned to the *Specifications*.

The assessor must be confident that the candidate is capable of applying the skills and knowledge included in this skill specification to the level, scope and complexity required to support the achievement of related skills included in the *Specifications*.

Commercial competence can only be demonstrated, and must be assessed, in the workplace.

The assessment of commercial competence must be corroborated and confirmed by a person who has current expertise in the interior linings installation trade and has had the opportunity to regularly observe the candidate in the workplace.

Skill specification and performance level guidance

Skill specification

Stop and finish interior linings.

Know Features and requirements of the different levels of finish.

How to apply compounds to stop and finish flat and curved surfaces.

How to apply tapes, mouldings and trim to stop and finish internal and external corners, edges, junctions and joins.

Do Stop and finish wall and ceiling areas to required levels of finish.

Apply tapes, mouldings and trim to stop and finish internal and external corners, edges, junctions and joins.

Stop and finish curved and architecturally detailed surfaces.

Performance level guidance

Levels of finish required are determined from working drawings and job specifications.

Curved and architecturally detailed surfaces include bulkheads, beams, column and pillar encasements, concave surfaces, convex surfaces, openings and skylights.

The quantity of interior linings to be stopped and finished in any given day depends on the size, shape and complexity of the areas to be stopped and finished; quality of the substrate; level of finish requirements; overall manpower; and site conditions.

Planned review date	31 December 2025
