

Title	Check substrates prior to fixing interior linings		
Level	4	Credits	8

Purpose	<p>This unit standard aligns with the <i>New Zealand Certificate in Interior Linings Installation – Specifications</i>, developed on behalf of the interior linings industry to specify the skills and knowledge required to achieve the New Zealand Certificate in Interior Linings Installation (Level 4) with strands in Fixing and Finishing (with optional strand in Fibrous Plaster Installation) [Ref: 3061].</p> <p>This unit standard is intended for those working in the interior linings industry.</p> <p>People credited with this unit standard are able to check substrates prior to fixing interior linings to the level required of a commercially competent interior linings fixer.</p>
----------------	---

Classification	Construction Trades > Plaster Board
-----------------------	-------------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

This unit standard is one of a family of standards that align with the *New Zealand Certificate in Interior Linings Installation – Specifications* and should be read, interpreted and assessed in the context of those *Specifications* and the New Zealand Certificate in Interior Linings Installation (Level 4) with strands in Fixing and Finishing (with optional strand in Fibrous Plaster Installation) [Ref: 3061].

The overarching level of performance for the family of unit standards is commercial competence.

Commercial competence requires a candidate to be capable of consistently performing the requirements of the unit specification:

- to current regulatory, industry and commercial standards
- within a commercially viable timeframe
- in commercial environments
- without supervision
- in different and unfamiliar contexts.

The sufficiency of evidence required to demonstrate commercial competence against this unit standard is determined within the context of the family of unit standards aligned to the *Specifications*.

The assessor must be confident that the candidate is capable of applying the skills and knowledge included in this skill specification to the level, scope and complexity required to support the achievement of related skills included in the *Specifications*.

Commercial competence can only be demonstrated, and must be assessed, in the workplace.

The assessment of commercial competence must be corroborated and confirmed by a person who has current expertise in the interior linings installation trade and has had the opportunity to regularly observe the candidate in the workplace.

Skill specification and performance level guidance

Skill specification

Check substrates prior to fixing interior linings.

Know Framing requirements for fixing interior sheet linings.

Solid substrate requirements for fixing interior sheet linings.

The types of and requirements for services in relation to fixing interior sheet linings.

Do Check framing and solid substrates for suitability prior to fixing interior linings.

Undertake or facilitate any necessary remedial work.

Performance level guidance

Types of framing include timber, steel and aluminium used for walls, ceilings and architectural features such as bulkheads, columns and beams.

Types of solid substrate include concrete, concrete block, brick and aerated concrete.

Framing suitability requirements include centres, line, level, plumb, square, ability to accommodate openings, perimeter fixings, moisture content and completion of pre-line inspection.

Services include electrical, plumbing, gas and telecommunications.

Checks include tolerances for level 4 and level 5 finishes.

The level of knowledge relating to substrates is restricted to the things that need to be known in order for them to be lined.

Planned review date	31 December 2025
