

Title	Demonstrate knowledge of installing substrates for proprietary plaster cladding systems		
Level	4	Credits	5

Purpose	<p>This unit standard is intended for people working in the proprietary plaster claddings systems industry.</p> <p>People credited with this unit standard are able to demonstrate knowledge of installing substrates for proprietary plaster cladding systems to the level required of a commercially competent proprietary plaster claddings trade professional.</p>
----------------	--

Classification	Construction Trades > Proprietary Plaster Cladding Systems
-----------------------	--

Available grade	Achieved
------------------------	----------

Guidance Information

1 Assessment

This unit standard is one of a family of standards intended to align with the *New Zealand Certificate in Trowel Trades – Specifications*, and the *New Zealand Certificate in Trowel Trades (Level 4)* with strands in Brick and Block Laying, Floor and Wall Tiling, Proprietary Plaster Cladding Systems, Ferro-cement Tank Manufacture, Refractory Installation, and Solid Plastering (with optional strands in Fixing Cavities and Substrates, and Decorative Mouldings) [Ref: 3137].

Evidence for this unit standard must reflect commercial competence.

Commercial competence requires a candidate to be capable of consistently performing the requirements of the unit specification:

- to current regulatory, industry and commercial standards
- within a commercially viable timeframe
- in commercial environments
- without supervision
- in different and unfamiliar contexts.

Commercial competence must be confirmed by a person who has current expertise in the proprietary plaster cladding systems trade.

2 Definition

Job documentation refers to all documented information related to the specific scope of work, including architect/designer's drawings.

- 3 Legislation, and guidance information relevant to this standard includes the following, and any subsequent amendments and replacements:

New Zealand Certificate in Trowel Trades – Specifications, BCITO, August 2021, available from www.waihangaarau.nz.

Legislation accessed at www.legislation.govt.nz

- Building Act 2004,
- Health and Safety at Work Act 2015,
- The New Zealand Building Code.

Best practice and good practice guidelines

- *The Absolutely Essential Health and Safety Toolkit for Small Construction Sites*, and other Worksafe NZ publications available from www.worksafe.govt.nz.

Skill specification and performance level guidance

Skill specification

Demonstrate knowledge of installing substrates for proprietary plaster cladding systems.

Knowledge

The purpose and methods to check light timber, steel framing, and solid masonry suitable for installing the substrate.

Range checks include – physical attributes, position of members, position of services, wraps, flashings.

The purpose and method to install substrates.

Range materials include – sheet, board;
board materials include – fibre cement, polystyrene, aerated concrete.

Performance level guidance

Performance must reflect the knowledge required to recognise if a substrate has been installed according to the manufacturer of the proprietary plaster cladding system, and job documentation.

Planned review date	31 December 2027
