

Title	Run and install decorative solid or modified plastered mouldings		
Level	4	Credits	40

Purpose	<p>This unit standard is intended for people working in the solid plastering industry.</p> <p>People credited with this unit standard are able to run and install decorative solid or modified plastered mouldings to the level required of a commercially competent solid plasterer.</p>
----------------	---

Classification	Construction Trades > Solid Plastering
-----------------------	--

Available grade	Achieved
------------------------	----------

Guidance Information

1 Assessment

This unit standard is one of a family of standards intended to align with the *New Zealand Certificate in Trowel Trades – Specifications*, and the *New Zealand Certificate in Trowel Trades (Level 4)* with strands in Brick and Block Laying, Floor and Wall Tiling, Proprietary Plaster Cladding Systems, Ferro-cement Tank Manufacture, Refractory Installation, and Solid Plastering (with optional strands in Fixing Cavities and Substrates, and Decorative Mouldings) [Ref: 3137].

Evidence for this unit standard must reflect commercial competence.

Commercial competence requires a candidate to be capable of consistently performing the requirements of the unit specification:

- to current regulatory, industry and commercial standards
- within a commercially viable timeframe
- in commercial environments
- without supervision
- in different and unfamiliar contexts.

Commercial competence must be confirmed by a person who has current expertise in the solid plastering trade.

2 Definitions

Job documentation refers to approved plans for the specific work to be carried out.

Plaster mouldings can be sand and cement plaster or modified plaster.

Workplace procedures refer to the documented procedures specific to a workplace which sets out the standard and the required practices of that workplace.

- 3 Legislation, standards and guidance information relevant to this standard includes the following, and any subsequent amendments and replacements:

Skill specification and performance level guidance

Skill specification

Run and install decorative solid or modified plastered mouldings.

Knowledge

The types, components and locations of decorative mouldings.

Range must include – arches, architraves, cornice, corbels, modillions, columns, pillars, dados, dentils, friezes, pediments.

How to make running moulds.

How to run mouldings on a bench or in situ.

Skills

Make running moulds.

Run plaster mouldings on a bench or in situ.

Install, cast or run mouldings to surfaces.

Range surfaces include – concrete, concrete block, brick, existing plaster.

Performance level guidance

Performance must reflect workplace procedures, legislative requirements, New Zealand Standards, and job documentation relevant to solid plastering.

Performance of running and installation of mouldings may include – arches, architraves, cornice, corbels, modillions, columns, pillars, dados, dentils, friezes, pediments.

Mouldings run on a bench are for future application. Mouldings run in situ are run directly onto the surfaces of the building or structure in their finished position.

Planned review date	31 December 2027
