Guidance Information

1 Definitions

This standard is underpinned by the following mātāpono (principles):

Pūkengatanga highlights the importance of keeping abreast of new knowledge, technology and models of whānau centred approaches and the abilities to reflect on personal practice as part of continuous self-improvement and sharing the lessons learnt.

SWOT refers to strengths, weaknesses, opportunities and threats.

Whānau Ora is about empowering whānau to take control of their future: to be self-determining (cohesive, resilient and nurturing); confidently participating in Te Ao Māori; to be living healthy lifestyles; to be participating fully in society; and to be economically secure; with initiatives that add value, build upon the strengths and capabilities already present in the whānau, and lead to better outcomes for whānau.
