Purpose	People credited with this unit standard are able to prepare surface, materials, and equipment for spray painting a marine surface; and apply paint by spray methods for a marine surface.
----------------	---

Classification	Boating Industries > Boatbuilding
-----------------------	-----------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 All work practices must meet recognised codes of practice and workplace policies and procedures (where these exceed code) for personal, product, and worksite health and safety, and must meet the obligations required under the Health and Safety at Work Act 2015, Resource Management Act 1991, and Hazardous Substances and New Organisms Act 1996, and any subsequent amendments.
- 2 Definitions
Job specifications refer to the standard requirements of the job being undertaken.
Workplace policies and procedures refer to the documented procedures and policies providing guidelines of the tasks and activities carried out in the workplace. This typically includes relevant health and safety requirements to manage risk in the workplace.
- 3 Evidence of at least five completed spray painting jobs in a marine context is required.
- 4 Range
 paint spraying methods may include – airless, air assisted and high-volume, low pressure (HVLV);
 evidence of two paint spraying methods is required.

Outcomes and performance criteria

Outcome 1

Prepare surface, materials, and equipment for spray painting a marine surface.

Performance criteria

- 1.1 Protection is applied to equipment, fittings, furnishings, and surfaces in accordance with job specifications.

- 1.2 Actions are taken to ensure that the work area is kept free of surface contaminants in accordance with workplace policies and procedures.
- 1.3 Materials and equipment are prepared in accordance with job specifications.

Outcome 2

Apply paint by spray methods for a marine surface.

Performance criteria

- 2.1 Coatings are applied by spray methods in accordance with manufacturer's specifications and job specifications.
- 2.2 Finished coatings are checked and action is taken if required, to ensure job specifications are met.
