Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Legislation and references
Performance of the outcomes of this unit standard must comply with the following: Health and Safety at Work Act 2015.
- 2 Any new, amended or replacement Acts, regulations, standards, codes of practice, guidelines, or authority requirements or conditions affecting this unit standard will take precedence for assessment purposes, pending review of this unit standard.
- 3 Definitions
All terrain vehicle or *ATV* means a vehicle, with or without motorcycle controls and equipment that is principally designed for off-road use, and has three or more wheels.
Company requirements refer to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.
Roll-over protection system is a structure intended to protect equipment operators from injuries caused by vehicle overturns or rollovers.
Service information may include – technical information for a vehicle, machine, or product detailing operation; installation and servicing procedures; manufacturer instructions; technical terms and descriptions; and detailed illustrations.
- 3 Assessment
Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable service information, and company requirements and legislative requirements.

Outcomes and performance criteria

Outcome 1

Describe ATV occupant safety systems.
