### Guidance Information

- 1 All tasks must be carried out in accordance with:
  - a quality management systems;
  - b designer's requirements and manufacturers' operating instructions; government and local government legislation, regulations, bylaws, Health and Safety at Work Act 2015 and New Zealand Standards;
  - c *Industrial Rope Access in New Zealand: Best Practice Guidelines May 2012* available from the website <https://worksafe.govt.nz/>; and
  - d AS/NZS 1891 parts 1-4: *Industrial fall-arrest systems and devices*; AS/NZS 4488: parts 1 and 2: *Industrial rope access systems*. New Zealand Standards are available from <http://www.standards.co.nz>, or their subsequent amendments.
- 2 Assessment  
Those undertaking assessment against this unit standard should note that work in the industrial rope access industry usually takes place at heights well above ground level, and therefore requires a level of physical fitness and ability to work at heights.
- 3 This unit standard has been developed for learning and assessment on-job or off-job in a simulated environment.

---

### Outcomes and performance criteria

#### Outcome 1

Set up and confirm the safety of rope access haulage systems.

#### Performance criteria

- 1.1 Set up a haulage system in accordance with manufacturer's instructions and best practice guidelines.

Range           hauling to 250kg maximum.

1.2 Confirm the rope access haulage system is safe to use.

## Outcome 2

Operate a rope access haulage system.

### Performance criteria

2.1 Operate a haulage system up to 250kg in accordance with best practice guidelines.

<b>Planned review date</b>	31 December 2024
