### Guidance Information

- 1 Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable service information, and company requirements and legislative requirements. This includes the knowledge and use of suitable tools and equipment.
- 2 Legislation, regulations and/or industry standards relevant to this unit standard include but are not limited to the current version of the Health and Safety at Work Act 2015; and any subsequent amendments and replacements.
- 3 Definitions  
*Company requirements* refer to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.  
*Low-pressure pumps* may include – slurry pumps and water pumps.  
*Service information* may include – technical information for a vehicle, machine, or product detailing operation; installation and servicing procedures; manufacturer instructions; technical terms and descriptions; and detailed illustrations.
- 4 It is recommended that people hold credit for Unit 31896, *Describe water blasters, low-pressure pumps, and diagnosing faults in the motor and related industries* before being assessed against this unit standard.

---

### Outcomes and performance criteria

#### Outcome 1

Diagnose and repair faults in a water blaster in the motor and related industries.

Range evidence of three different faults is required.

**Performance criteria**

- 1.1 Water blaster faults are diagnosed.
- 1.2 Water blaster faults are repaired.

**Outcome 2**

Diagnose and repair faults in a low-pressure pump in the motor and related industries.

Range evidence of three different faults is required.

**Performance criteria**

- 2.1 Low-pressure pump faults are diagnosed.
- 2.2 Low-pressure pump faults are repaired.

<b>Planned review date</b>	31 December 2024
----------------------------	------------------

**Status information and last date for assessment for superseded versions**

Process	Version	Date	Last Date for Assessment
Registration	1	22 August 2019	N/A
