----------------	---

<b>Classification</b>	Infrastructure Works > Temporary Traffic Management
-----------------------	---

<b>Available grade</b>	Achieved
------------------------	----------

### Guidance Information

- Learning and assessment for this unit standard must be in accordance with the following:
  - Health and Safety at Work Act 2015;
  - Resource Management Act 1991;
  - Land Transport Act 1998;
  - Land Transport Rule: Setting of Speed Limits 2017;
  - Land Transport (Road User) Rule 2004.
- Definitions
 

*Company requirements* include the policy, procedures, and methodologies of the company. They include legislative and regulatory requirements that may apply across the company or to a specific worksite. Requirements are documented in the company health and safety plans, traffic management plans (TMPs), contract work programmes, quality plans, policies, and procedural documents.

*TTM equipment* refers to equipment specifically used for TTM, including worksite protection, and may include but is not limited to temporary signs, delineation devices, temporary road safety barriers, and rotating flashing beacons.

*Worksite* refers to the section of road defined at each end by advance warning and end of works signs.

### Outcomes and performance criteria

#### Outcome 1

Demonstrate knowledge of working safely as a general worker on a worksite under temporary traffic management.

**Performance criteria**

- 1.1 Common hazards within the working space of a TTM worksite are explained in terms of how to identify and reduce associated risk in accordance with company requirements.
- 1.2 The roles and responsibilities of personnel working on or alongside a TTM worksite are explained in terms of who to contact if there is an issue with the TTM controls.
- 1.3 The importance of attending a TTM safety briefing is explained in terms of company requirements.
- 1.4 Personal protective equipment for working within or alongside a TTM worksite is explained in terms of the purpose and importance of wearing it in accordance with company requirements.
- 1.5 Safety zones and no-go zones on a TTM worksite are described in terms of location, purpose and their role in the safety of the TTM worksite.
- 1.6 TTM equipment used to control worksite access, exit, and haul routes are explained in terms of purpose and use for a TTM worksite.
