

Title	Demonstrate knowledge of stakeholders and operational requirements for temporary traffic management		
Level	3	Credits	5

Purpose	People credited with this unit standard are able to demonstrate knowledge of stakeholders and operational requirements for the worksite under temporary traffic management (TTM).
----------------	---

Classification	Infrastructure Works > Temporary Traffic Management
-----------------------	---

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Learning and assessment for this unit standard must be in accordance with the following:
 - Health and Safety at Work Act 2015;
 - Resource Management Act 1991;
 - Land Transport Act 1998;
 - Land Transport Rule: Setting of Speed Limits 2017;
 - Land Transport (Road User) Rule 2004.
- 2 Definitions

Company requirements include the policy, procedures, and methodologies of the company. They include legislative and regulatory requirements that may apply across the company or to a specific worksite. Requirements are documented in the company health and safety plans, traffic management plans (TMPs), contract work programmes, quality plans, policies, and procedural documents.

TTM equipment refers to equipment specifically used for TTM, including worksite protection, and may include but is not limited to temporary signs, delineation devices, temporary road safety barriers, and rotating flashing beacons.

Worksite refers to the section of road defined at each end by advance warning and end of works signs.

Outcomes and performance criteria

Outcome 1

Demonstrate knowledge of stakeholders in TTM.

Performance criteria

- 1.1 The role and responsibilities of TTM worksite personnel are explained in accordance with company requirements.

- 1.2 Delegated authority to ensure that visitors and personnel comply with TTM requirements are explained in terms of the TMP.
- 1.3 Powers of the Police to require the modification or removal of the worksite under TTM are explained in accordance with company requirements.
- 1.4 The skills and attributes of TTM personnel are explained in terms of the worksite under TTM, the role requirements, and communications with road users.
- 1.5 The benefits of personal health for TTM personnel are explained in terms of healthy food choices, fatigue, and hydration when performing a role on the worksite under TTM.

Outcome 2

Demonstrate knowledge of operational requirements on the worksite under TTM.

Performance criteria

- 2.1 Factors that can change the risk on the worksite under TTM are explained and corrective actions identified.
- 2.2 Components of visitor inductions are explained in accordance with company requirements.
- 2.3 Safety procedures are explained in terms of the requirements of the worksite under TTM in accordance with company requirements.
- 2.4 The importance of the TMP is explained in terms of the content and use on the TTM worksite.
- 2.5 The purpose of TTM equipment is explained in terms of use on the worksite under TTM.
- 2.6 Completion of on-site documentation is explained in accordance with company requirements.
- 2.7 The installation and removal of TTM equipment outside of the lane is explained in accordance with company requirements.
- 2.8 The requirements for undertaking an inspection activity are explained in accordance with company requirements.
