3   Definitions
Assessed need – the need assessed by the security officer dealing with the situation to which the need relates, based on the facts of the situation evident to the officer and a reasonable and logical analysis of them, including risk assessment.
Relevant instructions – oral, written or electronically transmitted instructions issued to govern the performance of security tasks, duties, and responsibilities. These may be in the form of policies, procedures, manuals, directives, or legal and compliance requirements. They may relate to a particular assignment, organisation, site or operation of equipment.
Security context – the circumstances in which the security officer works: the security industry, and the legal and compliance framework, in which the security officer operates including relevant instructions.
Security scenario – a situation, task or activity which may include event, site, incident, emergency operations in a security context.

Outcomes and performance criteria

Outcome 1

Demonstrate knowledge of operational security planning in a security context.

Performance criteria

1.1   Explain influencing factors in terms of how they contribute to the establishment of operational security plans in a security context.

        Range   factors must include – legislative requirements, specific orders, relevant instructions, procedures, risk assessment.

1.2   Identify and explain components of pre-deployment planning and how they relate to an operational security plan for a specific security setting.

        Range   components must include – cost, people, tasks, time-frames, resources, health and safety, outcomes, relevant instructions.

Outcome 2

Prepare and deliver operational security briefings for security scenarios.

Range   scenarios may include but are not limited to – event, site, incident, emergency; minimum of two scenarios is required.

Performance criteria

2.1   Prepare security operations briefing content, timing and format in accordance with assessed need and relevant instructions.

        Range   content must include – responsibilities, expected standards of performance, communications and reporting requirements, occupational health and safety requirements, timings (including - contractual obligations, rostering and shift work), locations, resources available to complete assigned tasks;
                  format includes – written, oral.

2.2   Deliver security operations briefing content with consideration of communication needs to a security team in accordance with relevant instructions.

        Range   communication needs may include – verbal and/or non-verbal factors, culture, gender, number of people, recipient's level of experience.

2.3   Gather feedback to confirm understanding from security operations team in accordance with relevant instructions.

        Range   may include but is not limited to – accurate description of task, feedback during briefing, questioning.

Outcome 3

Implement and monitor operational security plans for security scenarios.

Range   scenarios may include but are not limited to – event, site, incident, emergency; minimum of two scenarios is required

Performance criteria

3.1   Implement operational security plans in accordance with relevant instructions.

3.2   Monitor operational performance and identify deviations from security plans and situational changes in accordance with relevant instructions.

        Range   monitoring of operations and situational changes must include – ongoing risk assessment, resource management, client instructions.

3.3   Identify opportunities to improve operational performance and initiate with individuals who have authority for action in accordance with relevant instructions.

Outcome 4

Conduct operational debriefs for security scenarios.

Range   scenarios may include but are not limited to – event, site, incident, emergency;
minimum of two scenarios is required.

Performance criteria

4.1   Determine debriefing content, format and timing in accordance with relevant
instructions.

          Range   content must include – responsibilities, expected standards of
performance, communications and reporting requirements,
occupational health and safety requirements; timings (including -
contractual obligations, rostering and shift work), locations,
resources available to complete assigned tasks;
debriefing format includes – written, oral.

4.2   Conduct debrief with consideration of communication needs and in accordance
with relevant instructions.

          Range   communication needs may include – verbal and/or non-verbal
factors, culture, gender, number of people, level of experience.

4.3   Document debrief in accordance with relevant instructions.

          Range   documentation may include but is not limited to – feedback,
suggestions, issues, accidents, near-misses, incidents, resources.
