Guidance Information

1 Definitions

Accepted industry practice – approved codes of practice and standardised procedures accepted by the wider upholstery industry as examples of best practice.

Portable tools are tools that are air-assisted or require electrical supply to run.

Manufacturer's instructions are instructions provided by manufacturers of substances, equipment, and machinery used in furniture making. These instructions may include details on safe and correct handling, use and storage of substances and/or details on substance properties. Examples are labels on substance containers, product data sheets, and operator's manuals.

Workplace procedures refer to organisation policies and procedures. They may include but are not limited to – standard operating procedures, site specific procedures, site safety procedures, equipment operating procedures, quality assurance procedures, product quality specifications, references, approved codes of practice, housekeeping standards, environmental considerations, on-site briefings, supervisor's instructions, and procedures to comply with legislative and local body requirements relevant to the industry sector.

2 Assessment information

All activities and evidence must be in accordance with workplace procedures and accepted industry practice.
