

Title	Describe the environmental implications in the exercise of Māori customary fishing rights		
Level	4	Credits	3

Purpose	People credited with this unit standard are able to describe the environmental implications in the exercise of Māori customary fishing rights.
----------------	--

Classification	Environment Māori > Māori Environmental Management
-----------------------	--

Available grade	Achieved
------------------------	----------

Guidance Information

- Where the local rohe is occupied by a number of iwi or hapū, the tangata whenua or mana whenua view should take precedence. Other iwi or hapū views should be encouraged in order to enrich and enhance understanding of key Māori concepts and practices.
- Assessment against this unit standard can be conducted in a number of ways that may include but is not limited to – oral presentations, visual presentations, written presentations, whakaari, waiata, haka.
- Legislation relevant to this unit standard may include: Mātaitai reserves, Taiapure, Marine Reserves Act 1971, the Treaty of Waitangi Fisheries Claims Settlement Act 1992, Fisheries Act 1996, Marine and Coastal Area (Takutai Moana) Act 2011.
- Definitions
Kaitiakitanga – refers to Māori environmental management systems evolved to protect and enhance the mauri of taonga and ensure the sustainable use and management of natural and physical resources.
Taiapure – a local fishery declared under section 175 of the Fisheries Act 1996 which contains estuarine or littoral coastal waters of special significance to any iwi or hapū which is managed by a Committee.
Māori customary fishing – involves the concepts of the roles and interactions of atua Māori in the natural world. Customary fishing as a taonga has whakapapa to atua Māori and therefore shares a strong sense of responsibility and reciprocal obligations. This forms an important part of a holistic world view. All taonga are inter-related, inter-connected, and inter-dependent. The mauri of taonga must be protected. The sustainable management of taonga is therefore paramount.

Outcomes and performance criteria

Outcome 1

Describe the environmental implications in the exercise of Māori customary fishing rights.

Performance criteria

- 1.1 The environmental implications of the exercise of Māori customary fishing rights is described in terms of the development of iwi customary fishery policies, plans, and processes.
