## Guidance Information

- 1 Scope of practice**

*Working under supervision* means the ability to work to construction workplace standards under the supervision of a commercially competent practitioner whose role is to ensure the completed construction meets industry and regulatory requirements. This standard does not recognise commercial competence.
- 2 Assessment**

This unit standard must be assessed under the supervision of a commercially competent practitioner in construction workplace conditions that reflect:

  - current health, safety, industry, and workplace requirements; and
  - industry requirements for commercially acceptable timeframes.

Evidence generated for assessment against this standard must be verified by a person who has current expertise in the building and construction trades and has had the opportunity to regularly observe the candidate in the workplace.
- 3 Range**

Evidence generated for assessment against this standard must reflect workplace and industry requirements specified in:

  - documented worksite specifications, procedures, and practices;
  - manufacturer recommendations, specifications, and technical data sheets;
  - applicable specifications from other sources such as an architect, designer, engineer, or supervisor;
  - applicable material safety data sheets;
  - NZS 3604:2011 *Timber Framed Buildings*;
  - *Acceptable Solution E2/AS1 for Clause E2 External Moisture and E3 Internal Moisture*;
  - *Guide to Window Installation* (as described in E2/AS1 Amendment 8);
  - the New Zealand Building Code.

Evidence generated for assessment against this standard must reflect the requirements of:

- Building Act 2004
- Health and Safety at Work Act 2015
- Resource Management Act 1991
- Building Regulations 1992
- Building (Forms) Regulations 2004
- Health and Safety in Employment Regulations 1995.
