Guidance Information

- 1 Scope of practice**
Working under supervision means the ability to work to construction workplace standards under the supervision of a commercially competent practitioner whose role is to ensure the completed construction meets industry and regulatory requirements. This standard does not recognise commercial competence.
- 2 Assessment**
 This unit standard must be assessed under the supervision of a commercially competent practitioner in construction workplace conditions that reflect:

 - current health, safety, industry, and workplace requirements; and
 - industry requirements for commercially acceptable timeframes.

Evidence generated for assessment against this standard must be verified by a person who has current expertise in the building and construction trades and has had the opportunity to regularly observe the candidate in the workplace.
- 3 Range**
 Evidence generated for assessment against this standard must reflect workplace and industry requirements specified in:

 - documented worksite specifications, procedures, and practices;
 - consents, working drawings, plans and specifications, reports, producer statements, relevant industry standards, other documentation critical to the construction process;
 - manufacturer recommendations, specifications, and technical data sheets;
 - applicable specifications from other sources such as an architect, designer, engineer, or supervisor;
 - applicable material safety data sheets;
 - NZS 3604:2011 *Timber Framed Buildings*;
 - the New Zealand Building Code.

Evidence generated for assessment against this standard must reflect the requirements of:

- Building Act 2004;
- Health and Safety at Work Act 2015;
- Resource Management Act 1991;
- Building Regulations 1992;
- Building (Forms) Regulations 2004;
- Health and Safety in Employment Regulations 1995.

Outcomes and performance criteria

Outcome 1

Cut and fix metal roof cladding on a construction site under supervision.

Range metal roof cladding include – prefinished, zincalume, galvanised.

Performance criteria

1.1 Check installation of roof framing members against site documentation. Address any non-conformance in framing members.

1.2 Install underlay to meet a construction worksite specification.

1.3 Cut and fix profiled long-run metal roof cladding to meet a construction worksite specification.

1.4 Cut and fix accessories to provide a weather tight finish.

Range two of – ridging, hip caps, barge covers, apron flashings, valley tray flashing, and skylight flashing.

Outcome 2

Clean and store tools, plant, and equipment used to cut and fix metal roof cladding.

Range plant includes – any machinery, vehicle, vessel, aircraft, equipment (including personal protective equipment), appliance, container, implement, or tool; any component of any of those things; anything fitted or connected to any of those things;
personal protective equipment includes – anything used or worn by a person (including clothing) to minimise risks to the person's health and safety;
air-supplied respiratory equipment.

Performance criteria

- 2.1 Clean workplace, tools, and plant used to cut and fix metal roof cladding.
- 2.2 Store tools and plant used to cut and fix metal roof cladding.

Replacement information	This unit standard replaced unit standard 13056.
