

Title	Construct and strike commercial falsework and formwork under supervision		
Level	3	Credits	13

Purpose	People credited with this standard can: <ul style="list-style-type: none"> • construct and strike falsework and formwork under supervision; and • clean and store tools, plant and equipment used to construct falsework and formwork.
----------------	--

Classification	Construction Trades > Carpentry
-----------------------	---------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Scope of practice**
 Working *under supervision* means the ability to work to construction workplace standards under the supervision of a commercially competent practitioner whose role is to ensure the completed construction meets industry and regulatory requirements. This standard does not recognise commercial competence.
- 2 Assessment**
 This unit standard must be assessed under the supervision of a commercially competent practitioner in construction workplace conditions that reflect:
 - current health, safety, industry, and workplace requirements; and
 - industry requirements for commercially acceptable timeframes.

Evidence generated for assessment against this standard must be verified by a person who has current expertise in the building and construction trades and has had the opportunity to regularly observe the candidate in the workplace.
- 3 Range**
 Commercial falsework and formwork for concrete construction includes – high wall, column, suspended beam.

Evidence generated for assessment against this standard must reflect workplace and industry requirements specified in:

- documented worksite specifications, procedures, and practices;
- manufacturer recommendations, specifications, and technical data sheets;
- applicable specifications from other sources such as an architect, designer, engineer, or supervisor;
- applicable material safety data sheets;
- NZS 3109:1997 *Concrete construction*;
- NZS 3124:1987 *Specification for concrete construction for minor works*;
- the New Zealand Building Code.

Evidence generated for assessment against this standard must reflect the requirements of:

- Building Act 2004
- Health and Safety at Work Act 2015
- Resource Management Act 1991
- Building Regulations 1992
- Building (Forms) Regulations 2004
- Health and Safety in Employment Regulations 1995.

Outcomes and performance criteria

Outcome 1

Construct and strike commercial falsework and formwork under supervision.

Performance criteria

- 1.1 Set out and erect falsework and formwork for a construction job.
- Range line, level, plumb, specified tolerances, release agents.
- 1.2 Brace falsework and formwork to prevent displacement during construction.
- 1.3 Tie formwork to specified tolerances.
- Range tie system may include a proprietary system.
- 1.4 Strike formwork and falsework.
- Range concrete set to specification; without damaging – formwork, falsework, concrete, ready for re-use.

Outcome 2

Clean and store tool, plant and equipment used to construct falsework and formwork.

Range plant includes – any machinery, vehicle, vessel, aircraft, equipment (including personal protective equipment), appliance, container, implement, or tool; any component of any of those things; anything fitted or connected to any of those things;
 personal protective equipment includes – anything used or worn by a person (including clothing) to minimise risks to the person's health and safety;
 air-supplied respiratory equipment.

Performance criteria

2.1 Clean workplace, tools, and plant used to construct falsework and formwork.

2.2 Store tools and plant used to construct falsework and formwork.

Replacement information	This unit standard replaced unit standard 13065.
