Guidance Information

1 Scope of practice

Working *under supervision* means the ability to work to construction workplace standards under the supervision of a commercially competent practitioner whose role is to ensure the completed construction meets industry and regulatory requirements. This standard does not recognise commercial competence.

2 Assessment

This unit standard must be assessed under the supervision of a commercially competent practitioner in construction workplace conditions that reflect:

- current health, safety, industry, and workplace requirements; and
- industry requirements for commercially acceptable timeframes.

Evidence generated for assessment against this standard must be verified by a person who has current expertise in the building and construction trades and has had the opportunity to regularly observe the candidate in the workplace.

3 Range

Evidence generated for assessment against this standard must reflect workplace and industry requirements specified in:

- consents, working drawings, plans and specifications, reports, producer statements, relevant industry standards, and other documentation critical to the construction process;
- documented worksite specifications, procedures, and practices;
- manufacturer recommendations, specifications, and technical data sheets;
- applicable specifications from other sources such as an architect, designer, engineer, or supervisor;
- applicable material safety data sheets;
- NZS 3604:2011 *Timber Framed Buildings*;
- the New Zealand Building Code.

Evidence generated for assessment against this standard must reflect the requirements of:

- Building Act 2004
- Health and Safety at Work Act 2015
- Resource Management Act 1991
- Building Regulations 1992
- Building (Forms) Regulations 2004
- Health and Safety in Employment Regulations 1995.

Outcomes and performance criteria

Outcome 1

Erect truss roofs under supervision.

Performance criteria

- 1.1 Receive roof trusses and fixings for a residential dwelling and check them for damage. Address any damage according to worksite procedure.
- 1.2 Handle and store roof trusses and fixings on site.
- Range undamaged, stored according to manufacturer instructions.
- 1.3 Set out roof trusses according to site documents. Erect and fix the trusses according to the truss plan.
- 1.4 Set out, erect, and fix support and bracing systems according to the site documents.
- Range four of – purlins, ceiling battens, roof space braces, roof plane braces, soffit framing.

Outcome 2

Clean and store tools, plant, and equipment used to erect truss roofs.

Range plant includes – any machinery, vehicle, vessel, aircraft, equipment (including personal protective equipment), appliance, container, implement, or tool; any component of any of those things; anything fitted or connected to any of those things;
 personal protective equipment includes – anything used or worn by a person (including clothing) to minimise risks to the person's health and safety;
 air-supplied respiratory equipment.

Performance criteria

- 2.1 Clean workplace, tools, and plant used to erect truss roofs for residential dwellings.
- 2.2 Store tools and plant used to erect truss roofs for residential dwellings.

Replacement information	This unit standard replaced unit standard 18732.
