Guidance Information

1 Assessment

This unit standard is intended to align with the *New Zealand Certificate in Flooring Installation – Specifications* and the *New Zealand Certificate in Flooring Installation (Level 4)* [Ref: 4296].

Evidence for this standard must reflect commercial competence.

Commercial competence refers to the ability to demonstrate knowledge and skills in the context of the currently accepted requirements of a business operating in a commercial environment.

Commercial competence must be confirmed by a person with current expertise in the flooring installation trade.

2 Definitions

Bonded carpet installation is also known as direct-stick system and double-bond system.

Consumables are those items necessary to secure and finish edges, junctions, joins, changes in planes, and height variations.

Conventional carpet installation is also known as the carpet gripper system.

Workplace procedures refers to the documented procedures specific to a workplace which sets out the standard and the required practices of that workplace.
