Guidance Information

1 Assessment

This unit standard is intended to align with the *New Zealand Certificate in Timber and composite flooring – Specifications* and the New Zealand Certificate in Timber and Composite Flooring (Level 4) [Ref: 4300].

Evidence for this standard must reflect commercial competence.

Commercial competence refers to the ability to demonstrate knowledge and skills in the context of the currently accepted requirements of a business operating in a commercial environment.

Commercial competence must be confirmed by a person with current expertise in the timber and composite flooring trade.

2 Definitions

Manufacturers' installation guidelines include all the relevant producer information for a specific timber floor installation.

Timber or composite flooring includes solid, laminated and processed timber in strip, block, sheet or tiled form.

Workplace procedures refers to the documented procedures specific to a workplace which sets out the standard and the required practices of that workplace.

3 Legislation, standards and guidance information relevant to this standard includes the following, and any subsequent amendments and replacements:

New Zealand Certificate in Timber or composite flooring – Specifications, BCITO, September 2020, available from www.waihanga.nz.

Legislation accessed at www.legislation.govt.nz

- Building Act 2004
- Construction Contracts Act 2002
- Health and Safety at Work Act 2015
- The New Zealand Building Code.

Standards accessed at www.standards.govt.nz

- NZS 3604:2011 *Timber Framed Buildings*
- ISO 10874:2009 *Resilient, textile and laminate floor coverings – Classification*
- AS/NZS 1080.1:2012 *Timber – Methods of test – Method 1: Moisture content.*

Best practice and good practice guidelines
