Guidance Information

1 Assessment

This unit standard is intended to align with the *New Zealand Certificate in Resin flooring – Specifications* and the *New Zealand Certificate in Resin Flooring (Level 4)* [Ref: 4300].

Evidence for this standard must reflect commercial competence.

Commercial competence refers to the ability to demonstrate knowledge and skills in the context of the currently accepted requirements of a business operating in a commercial environment.

Commercial competence must be confirmed by a tradesperson with current expertise in the resin flooring application trade.

2 Definition

Manufacturer's application guidelines include all the relevant application information for a specific resin flooring system.

Workplace procedures refers to the documented procedures specific to a workplace which sets out the standard and the required practices of that workplace.

3 Legislation, standards and guidance information relevant to this standard includes the following, and any subsequent amendments and replacements:

New Zealand Certificate in Resin flooring – Specifications, BCITO, September 2020, available from www.waihanga.nz.

Legislation accessed at www.legislation.govt.nz

- Building Act 2004
- Hazardous Substances and New Organisms Act 1996
- Health and Safety at Work Act 2015
- The New Zealand Building Code.

Standards accessed at www.standards.govt.nz

- NZS 3604:2011 *Timber Framed Buildings*.

Best practice and good practice guidelines

- *The Absolutely Essential Health and Safety Toolkit for Small Construction Sites*, and other Worksafe NZ publications available from www.worksafe.govt.nz.

Skill specification and performance level guidance

Skill specification

Complete post-application requirements for resin flooring systems.

Knowledge

The visual signs of common issues associated with flawed and damaged resin flooring systems.

The requirements and methods to repair flawed and damaged resin flooring areas.

Range without injury to people or damage to equipment and buildings.

The purpose of, and how to select and interpret relevant information regarding on-going care and maintenance for resin flooring systems.

Skills

Remove surplus materials and clean up site after resin flooring application.

Range adherence to Hazardous Substances and New Organisms Act 1996 and Health and Safety at Work Act 2015.

Undertake minor repairs to flawed or damaged resin flooring areas as required.

Range without impact to the aesthetics, protection, and wear of the applied resin.

Provide relevant advice to clients relating to on-going care and maintenance of resin flooring systems.

Range may include – specific manufacturers' recommendations, workplace information, New Zealand Standards; advice is in both written and verbal form.

Performance level guidance

Performance must reflect workplace procedures, legislative requirements, and manufacturer's application guidelines.

Post-application tasks are completed to protect newly applied resin flooring surfaces and allow an applied resin system to cure.

Planned review date	31 December 2026
