- 5 This unit standard can be used together with other relevant unit standards, additional learning and workplace training to meet the requirements of the Electrical Workers Registration Board (EWRB) core competencies, available at https://www.ewrb.govt.nz
- 6 The verification certificate completed for the purpose of this assessment cannot be used to issue official certification of the installation.

- 7 Range
 - a Candidates may refer to current legislation and Standards during assessment.
 - b Demonstration of safe working practices and installation in accordance with safe and sound practice are essential components of assessment of this unit standard.
 - c All activities and evidence presented for all outcomes and performance criteria in this unit standard must be in accordance with:
 - i legislation;
 - ii policies and procedures;
 - iii ethical codes;
 - iv Standards may include but are not limited to those listed in Schedule 2 of the Electricity (Safety) Regulations 2010;
 - v applicable site, enterprise, and industry practice; and
 - vi where appropriate, manufacturers' instructions, specifications, and data sheets.

Outcomes and performance criteria

Outcome 1

Carry out verification of an electrical installation.

Performance criteria

- 1.1 Communicate with stakeholders to establish and meet verification requirements.
- 1.2 Carry out a verification inspection and testing on an electrical installation in accordance with AS/NZS 3019.
- 1.3 Complete a report on the verification findings.
- Planned review date
 31 December 2026

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	24 March 2022	N/A
