Guidance Information

1 Assessment

This unit standard is intended to align with the *New Zealand Certificate in Concrete Construction Skills Specifications* and the *New Zealand Certificate in Concrete Construction Skills (Level 3)* [Ref: 4189].

Evidence for this standard must reflect commercial standards.

Commercial standards refer to verbal and written information covering company policy, standard operating procedures and processes, and job-specific instructions.

Working to commercial standards refers to the ability to consistently:

- perform standard processes to current industry standards, on demand and within a commercially acceptable timeframe;
- perform non-standard processes to current industry standards, on demand and within a commercially acceptable timeframe, under the supervision of a commercially competent practitioner.

Working to commercial standards must be confirmed by a person with current expertise in formwork construction.

2 Definition

Workplace procedures refers to the documented procedures specific to a workplace that set out the standards and required practices of that workplace.

- 3 Legislation, standards and guidance information relevant to this standard includes the following; and any subsequent amendments and replacements.

Skill specification and performance level guidance

Skill specification

Maintain tools, plant and equipment used to construct formwork for concrete structures and foundations.

Knowledge

The purpose of hand and power tools used to construct formwork for concrete structures and foundations.

The purpose of plant and equipment used to construct formwork for concrete structures and foundations.

The maintenance procedures for tools, plant and equipment used to construct formwork for concrete structures and foundations.

Skills

Maintain tools, plant and equipment used to construct formwork for concrete structures.

Range maintenance includes – cleaning, and basic servicing and repair.

Performance level guidance

Performance must reflect current regulatory, industry and commercial standards relevant to formwork construction.

Maintenance of tools, plant and equipment must be according to manufacturer's instructions and workplace procedures.

Planned review date	31 December 2026
