Standard setting body (SSB) Fire and Rescue Services Industry Training Organisation

Accreditation and Moderation Action Plan (AMAP) reference 0039

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Special notes

- 1 Compliance with the fire and rescue service provider's Health and Safety policy and procedures is mandatory.
- 2 Assessment against this unit standard may take place under real or practical simulated conditions.
- 3 Candidates should obtain a copy of their local Rural Fire Authority Fire Plan, available through their local Principal Rural Fire Officer.
- 4 **Definition**
Fire and rescue service provider's requirements refers to policies and procedures on safety and operation set down by each fire and rescue service employer or host organisation.

Elements and performance criteria

Element 1

Provide support services during a vegetation fire incident.

Performance criteria

1.1 Resources are requisitioned in accordance with the fire and rescue service provider's requirements.

Range may include but is not limited to – personnel, maps, general equipment, specialised equipment, consumables, weather forecasts, support organisations.

1.2 Resources are received and then dispatched in accordance with the fire and rescue service provider's requirements.

Range may include but is not limited to – delivery information, location, support requirements, communications established.

Element 2

Communicate and action requests during a vegetation fire incident.

Performance criteria

2.1 Communication is maintained in accordance with the fire and rescue service provider's requirements.

2.2 All requests and support services are actioned in accordance with the fire and rescue service provider's requirements.

Element 3

Maintain records during a vegetation fire incident.

Performance criteria

3.1 Incident records are maintained in accordance with the fire and rescue service provider's requirements.

3.2 Recording of resource use is in accordance with the fire and rescue service provider's requirements.

3.3 Logs of people entering and leaving the fire ground are maintained in accordance with the fire and rescue service provider's requirements.

Please note

Providers must be accredited by the NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.

Comments on this unit standard
