Examples are – standard operating procedures, safety procedures, equipment operating procedures, codes of practice, quality management practices and standards, procedures to comply with legislative and local body requirements.

Outcomes and performance criteria

Outcome 1

Prepare to maintain helicopter rescue winch

Performance criteria

- 1.1 Task is determined by reviewing maintenance documentation.
- 1.2 Resources are obtained and checked for serviceability or status.
 Range may include but is not limited to – publications, tools, equipment, safety equipment, materials.
- 1.3 Rescue winch serial number is matched with documentation.
- 1.4 Rescue winch system is prepared for the application of power and for system operation.
 Range cable cutting devices rendered safe, controls match rescue winch positions, clearances obtained, isolation tags fitted.

1.5 Ground equipment is positioned ready for system operation.

Outcome 2

Locate rescue winch defects.

Performance criteria

2.1 Serviceability is determined.

2.2 Defects are located using troubleshooting techniques appropriate to the defect indications.

2.3 Defects are reported and documented.

Outcome 3

Restore rescue winches to a serviceable condition.

Performance criteria

3.1 Methods of rectifying defects are determined.

3.2 Replacement parts are procured and verified as authentic and serviceable.

Range identify, inspect.

3.3 System defects are rectified.

Range may include but is not limited to – repair, replace, modify, adjust, calibrate, lubricate.

3.4 System is tested to verify serviceability.

3.5 Inspections are obtained.

Outcome 4

Complete finishing activities related to maintaining rescue winches.

Performance criteria

4.1 Completion activities specific to the task and work area are carried out.

Range may include but is not limited to – tool control, cleanliness, tidiness, return of publications, preparation for next activity, return of helicopter and systems to normal.

4.2 Resources are checked for serviceability and returned to service or storage.

Range tools, equipment, safety equipment.

4.3 Leftover parts and materials are disposed of.

Range may include but is not limited to – serviceable, unserviceable, surplus, waste, scrap, hazardous.

4.4 Documentation is completed.

Planned review date	31 December 2024
