

Demonstrate knowledge of and install flat and corner joints for fibrous plaster sheets

Level 3

Credits 6

Purpose People credited with this unit standard are able to describe methods used to install flat and corner joints for fibrous plaster sheets, and install flat and corner joints for fibrous plaster sheets.

Subfield Construction Trades

Domain Fibrous Plaster

Status Registered

Status date 25 January 2008

Date version published 25 January 2008

Planned review date 31 December 2011

Entry information Open.

Accreditation Evaluation of documentation and visit by NZQA and industry.

Standard setting body (SSB) Building and Construction Industry Training Organisation

Accreditation and Moderation Action Plan (AMAP) reference 0048

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Special notes

1 Definitions

Access equipment, for the purpose of this unit standard, means equipment used to facilitate access to the work area, and may include ladders, working platforms, scaffolding or mechanical plant. Approved codes of practice relating to the safe operation of this equipment are available at <http://www.osh.govt.nz>.

Specifications refers to documented instructions (oral, written, graphic) and may include any of the following: manufacturer's specifications, recommendations or technical data sheets; material specifications; specifications from a specialist source such as an architect, designer, engineer or a supervisor; site or work specific requirements.

Work site practice refers to the documented procedures specific to a work site which set out the standard and required practices of that work site.

- 2 Credit for this unit standard can be achieved on site through a registered assessor, or off site with an accredited training provider.
- 3 All work practices must comply with the following: Health and Safety in Employment Act 1992 and Health and Safety in Employment Regulations 1995; Resource Management Act 1991; Building Act 2004; AS/NZS 2589:2007 *Gypsum linings – Application and finishing*, available from Standards NZ (<http://www.standards.co.nz>); *Approved Code of Practice for the Safe Erection and Use of Scaffolding* (Wellington: Occupational Safety and Health Service, Department of Labour, 1995) available at <http://www.osh.govt.nz>; New Zealand Building Code.
- 4 Credit for this unit standard indicates compliance with industry practice. *Industry practice* refers to the ability to demonstrate knowledge and skills that reflect the productivity, uniformity, finish quality and material economies currently accepted within industry.

Elements and performance criteria

Element 1

Describe methods used to install flat and corner joints for fibrous plaster sheets.

Performance criteria

- 1.1 Methods of installation are described in accordance with manufacturer's and job specifications.

Range PVC, metal, fibre tape.

Element 2

Install flat and corner joints for fibrous plaster sheets.

Performance criteria

- 2.1 Type of joint required is identified from working drawings or job specifications.
- 2.2 Access equipment is arranged in accordance with the Health and Safety in Employment Regulations.
- 2.3 Joints are installed in accordance with manufacturer's recommendations and job specifications.

Range two of – PVC, metal, fibre tape.
- 2.4 All operations are completed, workplace and tools cleaned, and tools stored in accordance with work site practice.

Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.

Comments on this unit standard
