Purpose People credited with this unit standard are able to identify and describe the types of plaster board sheets and mouldings available to industry, and describe the manufacture and storage of plaster board sheets and mouldings.

Subfield Construction Trades

Domain Plaster Board

Status Registered

Status date 25 January 2008

Date version published 20 March 2008

Planned review date 31 December 2011

Entry information Open.

Accreditation Evaluation of documentation and visit by NZQA and industry.

Standard setting body (SSB) Building and Construction Industry Training Organisation

Accreditation and Moderation Action Plan (AMAP) reference 0048

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Special notes

- 1 Definition
Specifications refers to documented instructions (oral, written, graphic) and may include any of the following: manufacturer's specifications, recommendations or technical data sheets; material specifications; specifications from a specialist source such as an architect, designer, engineer or a supervisor; site or work specific requirements.
- 2 Credit for this unit standard can be achieved on site through a registered assessor, or off site with an accredited training provider.

Elements and performance criteria

Element 1

Identify and describe the types of plaster board sheets and mouldings available to industry.

Performance criteria

1.1 Types of flat sheets available from manufacturers are identified and described.

Range standard, bracing, water resistant, fire resistance rated, strengthened, sound control.

1.2 Types of paper faced plaster cove mouldings available from manufacturers are identified and described.

Element 2

Describe the manufacture and storage of plaster board sheets and mouldings.

Performance criteria

2.1 The description identifies placement of face and back sheetings and core filling in accordance with the manufacturer's specifications.

2.2 The description identifies cutting, packing, and storage of sheets and mouldings in accordance with the manufacturer's specifications.

Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.

Comments on this unit standard
