Entry information Recommended: Unit 6155, *Install suspended ceilings on site*, or demonstrate equivalent knowledge and skills.

Accreditation Evaluation of documentation and visit by NZQA and industry.

Standard setting body (SSB) Building and Construction Industry Training Organisation

Accreditation and Moderation Action Plan (AMAP) reference 0048

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Special notes

1 Definition

Specifications refer to documented specifications and may include any of the following: drawings, project or job requirements, manufacturers' specifications, recommendations or instructions, material specifications.

Work site practices refer to the practices generally acknowledged by the industry as being acceptable when no specific work site is relevant or available and refers to the documented procedures specific to a work site which set out the standard and required practices of that work site.

Plant is used as in the Health and Safety in Employment Act 1992 to mean: appliances, equipment, fittings, furniture, implements, machines, machinery, tools, vehicles, plus parts, controls, and anything connected to such plant.

- 2 Credit for this unit standard can be achieved on site through a registered assessor, or in a simulated environment with an accredited training provider.
- 3 All work practices must comply with the following:
Health and Safety in Employment Act 1992;
Health and Safety in Employment Regulations 1995; Resource Management Act 1991;
Building Act 2004;
Approved Code of Practice for the Safe Erection and Use of Scaffolding (Department of Labour, Wellington, 1995) available at <http://www.osh.govt.nz>;
AS/NZS 2785:2000 *Suspended ceilings – Design and installation*, available at Standards NZ <http://www.standards.co.nz>;
New Zealand Building Code.

Elements and performance criteria

Element 1

Set out for special suspended ceiling details.

Performance criteria

- 1.1 Type of detail is identified from manufacturer's specifications.
- 1.2 Access is arranged and complies with the Health and Safety in Employment Regulations.
- 1.3 Work site measurements are confirmed in accordance with work site practice.
- 1.4 Working drawings are completed to comply with manufacturer's specifications.
- 1.5 Materials are accepted and stored to ensure specified quality is maintained, in accordance with work site practice.
- 1.6 Setting out is done in accordance with working drawings.
- 1.7 All operations are completed without damage to the work site, tools, or plant.

Element 2

Construct special details for suspended ceilings.

Performance criteria

- 2.1 Special details are constructed to conform to manufacturer's specifications.
Range light troughs, bulkheads, expansion joints.
- 2.2 Completed special suspended ceiling conforms to manufacturer's specifications.
- 2.3 All operations are completed without damage to the work site, tools, or plant.

Element 3

Complete documentation and clean up after work is completed.

Performance criteria

- 3.1 Tools and plant are maintained, cleaned, and stored in accordance with work site practice.
- 3.2 Waste material is disposed of and work site is cleaned in accordance with work site practice.
- 3.3 Job documentation is completed in accordance with work site practice.

Please note

Providers must be accredited by the Qualifications Authority, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by the Qualifications Authority before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.

Comments on this unit standard
