

Title	Demonstrate wave-sailing techniques on a shortboard		
Level	4	Credits	10

Purpose	People credited with this unit standard are able to: prepare for wave-sailing; and demonstrate wave-sailing techniques in waves of two metres from crest to trough, or more.
----------------	--

Classification	Outdoor Recreation > Windsurfing
-----------------------	----------------------------------

Available grade	Achieved
------------------------	----------

Prerequisites	Unit 462, <i>Demonstrate shortboard sailing techniques</i> , or demonstrate equivalent knowledge and skills.
----------------------	--

Guidance Information

- 1 A *shortboard* is a windsurf hull without a centreboard that is between 8-10 feet in length.
- 2 All activities must comply with relevant environmental, legislative, and/or regulatory requirements set out in the *New Zealand Environmental Care Code*, Health and Safety in Employment Act 1992, Injury Prevention, Rehabilitation, and Compensation Act 2001, and their subsequent amendments. The *New Zealand Environmental Care Code* is available from the Department of Conservation, Head Office, PO Box 10420, Wellington, <http://www.doc.govt.nz/>.
- 3 There are minimum assessor requirements for assessment against this unit standard. The details of these requirements are available on the Sfrito website <http://www.sfrito.org.nz/>.

Outcomes and performance criteria

Outcome 1

Prepare for wave-sailing.

Performance criteria

- 1.1 Features that make a board suitable for wave-sailing are identified.
Range scoop, rocker, length, volume.
- 1.2 The effect of wind and sea conditions on the board are described.

Outcome 2

Demonstrate wave-sailing techniques in waves of two metres from crest to trough, or more.

Performance criteria

- 2.1 Water starts are confidently performed.
- 2.2 Control of the shortboard is shown when stopping.
- 2.3 Control of the shortboard is shown when turning.
Range bottom turn, top turn (cut back).
- 2.4 The ability to make way upwind is demonstrated for 50m.
- 2.5 Control of the board is maintained while sailing directly downwind for 50m.
- 2.6 The board is landed successfully after a jump (whole board out of water), so sailing can continue.

This unit standard is expiring. Assessment against the standard must take place by the last date for assessment set out below.
